

Tranglo

Service Specification

Our range of payment solutions, corridors and payout processing network by country and method.

Tranglo connects your business to the world

Our cross-border payment solution gives you immediate access to 70 countries and all major currencies. Payout via API, web platform or batch transfers through a local payment processing network of 5,000 banks/wallets and 140,000 cash pickup points.

5 advantages of Tranglo Connect

Single API access

Our proprietary technology seamlessly integrates your payment system with ours to ensure quicker, more secure and reliable payouts.

World-class compliance and security

Real-time monitoring, screening and blocking service that ensures full compliance with international and local financial regulations.

Competitive FX rates

Fully transparent and flexible pricing with a wholesale model tailored to your needs.

Best coverage for APAC and SEA corridors

Over a decade of cross-border remittance experience, especially high-traffic corridors like Philippines, Indonesia and Vietnam.

Complimentary marketing and technical support

Collaborative marketing, data-based insights and strategic outreach to ensure maximum value for your products and promotional campaigns. Our technical and customer support team is available 24/7.
